

Re: SINCLAIR BROADCASTING

With the blessing and/or implied permission of you, our current FCC, broadcasting companies like Sinclair are the corporate equivalent of Pravda. You DO remember the Cold War, don't you, and how we fought mightily against the USSR and its totalitarian, brainwashing press? Looks like the same thing in the US of A now, only with a different face.

I remind you that Sinclair is using the (our) public airwaves free of charge and is obligated by law TO SERVE THE PUBLIC INTEREST, not its own. Force Sinclair to give equal time to the Kerry campaign--uninterrupted by commercials, of course.
